Abstracts

The Europe Content Services Platforms Market would witness market growth of 18.5% CAGR during the forecast period (2018 – 2024). Content service platform market in Europe will be strengthened by the increasing acceptance of SMAC technology. Content services software allows organizations to give the correct content to the correct individuals at the correct moment. Users can access and communicate with the content they need from within the application they are using through tailored workspaces. The finest content services systems enable the creation of low-code or no-code plug-ins that decouples the customer experience from the fundamental material repository. In the context of the applications they use every day, the user now has access to dynamic and personalized content.

Based on Component, the market is segmented into Solutions and Services. Solutions is further segmented into Document & Records Management, Workflow Management & Case Management, Information Security & Governance, Data Capture, Content Reporting & Analytics, and Others.
