Abstracts

The Europe Food Thickeners Market would witness market growth of 4.4% CAGR during the forecast period (2017 – 2023). Food thickeners are used to enhance viscosity, texture, stability, taste, and flavor of the food products. The food thickeners enhance the appearance of food products and can replace high fat oils and creams in numerous recipes. Europe dominated the global market, owing to the efforts of food & beverages manufactures to provide suitable products. Health concern was the major factor that was considered in the European region and lead to better supply of food products. Demand for healthy and low-fat food has driven the growth of this market in the region.

Based on Product, the market report segments the market into Starch, Hydrocolloids, and Protein. Based on End User, the market report segments the market into Dairy, Beverages, Bakery, Confectionery, and Others.
