Abstracts

The Europe Healthy Snacks Market would witness market growth of 4.63% CAGR during the forecast period (2019–2025).

The Europe market is projected to be one of the major markets in revenue terms over the forecast period. This trend can be attributed to the existence of local manufacturers and a growing preference for healthy food products among individuals in the region. Also, the Asia Pacific healthy snacks market is likely to record the high growth in revenue terms over the forecast period.

Dried fruit snacks are consumed by clients at a wide-scale as they provide minerals, phytonutrients, vitamins, and fiber. The rising awareness of the health benefits provided by customers in European countries, mainly the UK, Germany, and France, is likely to boost the demand for these products over the coming years.

Regulatory bodies in advanced regions like Europe have laid down rigid laws for the manufacture of meat snacks to guarantee better protection of customer health. Hence, meat snacks producers are required to ensure better quality products that entail extra costs and may challenge the segment's development over the next few years.

Based on Product Type, the market is segmented into Cereal & Granola Bars, Nuts & Seeds Snacks, Meat Snacks, Dried Fruit and Trail Mix Snacks. Based on Distribution Channel, the market is segmented into Hypermarket & Supermarket, Food Specialty Stores, Convenience Stores, Online and Others.
