## Abstracts

The Europe Medical Spa Market would witness market growth of 11.88% CAGR during the forecast period (2019-2025).

Medical spa settings similar to hospitals provide facilities to patients recovering, their friends, family, hospital staff, etc. The most popular services offered by such spas are cosmetic services. Progressively exceptional marketing techniques will show that various ethnic groups have a deep loyalty to those who can best meet their specific needs. Different ethnic groups get drawn to practitioners who understand their unique needs through physicians and aesthetic services. Being sure that these service providers understand the population of patients is crucial to growing their business and niche.

Price remains a primary reason why many patients are not going forward with cosmetic procedures—or even looking for a consultation. Anyone can now step forward with cosmetic procedures because of No Interest grants from forward-thinking insurance agencies such as Care Credit (a patient financing company that is a GE Money division). Patients are increasingly using the funding to buy the aesthetic services they are looking for right now.

Based on Services, the market is segmented into Facial Treatment, Body Shaping & Contouring, Hair Removal, Scar Revision, Tattoo Removal and Other Services. Based on countries, the market is segmented into Germany, UK, France, Russia, Spain, Italy, and Rest of Europe.
