## Abstracts

The Europe Underwater Camera Market would witness market growth of 14.4% CAGR during the forecast period (2017 – 2023). Underwater cameras are equipped with advanced sensors; therefore, these devices have the capability of capturing good quality images underwater, where light is dim. Growing internet penetration and trend of online purchases in the region drives the market growth. The region also has market participants launching products online and also organizing various photography competitions online, to target potential customers who would eventually buy products. Offline purchases help customers in making better purchase decisions without having to wait for the delivery of the products.

Based on Sales Channel, the Underwater Camera market segments the market into Online and Offline. Based on End User, the market report segments the market into Commercial and Personal. Based on Countries, the Underwater Camera market segments the market into Germany, UK, France, Russia, Spain, Italy, and Rest of Europe.
