The Global Cloud IT Service Management (ITSM) Market size is expected to reach \$14.6 billion by 2025, rising at a market growth of 20.3% CAGR during the forecast period. The rising mobile workforce, together with security and privacy concerns, will boost the growth of the cloud-based ITSM market demand over the years to come. In addition, the major shift of small and medium-sized enterprises towards cloud technology has a positive impact on cloud-based ITSM solutions that enhance data security, integrity and service delivery. In addition, training and service centers are introducing a new Foundation Cloud course for trainers to raise awareness of ITSM solutions, which is expected to contribute to the growth of the sector.
