## Abstracts

The Global Topical Dispenser Market size is expected to reach \$777.6 Million by 2026, rising at a market growth of 8.3% CAGR during the forecast period. Topical applicators are mainly utilized for topical medications that are applied to body surfaces. These applicators can be easily used on ailments such as creams, gels, foams, lotions, and ointments for skin treatment. With the help of topical applicators, cream, or gel application becomes easy and contactless. The Topical applicators are specifically categorized into two forms: metered or swab type. The metered topical applicators make sure that the metered dosage provides optimum provider efficiency and patient comfort of use.

There is a massive growth of this market visible with an increase in population, which raises the chances of skin diseases. However, topical dispensers can acquire maximum opportunities by deploying an accurate dispensing technique. Accurate techniques can help increase market growth during the forecast period. Topical dispensers give easy access to medication with safe use and add value to drug products. A huge proportion of healthcare spending is dedicated to dermatological conditions that impose topical therapies, such as skin cancer, psoriasis, and dermatitis. The availability of new products and the advancement of technology are the key aspects responsible for growth in this market.

The demand for topical applicators is mainly observed for dermal therapies. The large number of medications related to the skin is topical and compel topical applicators for

safe application. The best thing about using Metered topical applicators is that it guarantees the right amount of ointment application on the body surface. A single click of the topical applicators can dispense the required amount of medication and is user friendly. Some of the advantages of using Topical applicators are: it is reliable as the automated consistent dose reduces, user-variability, and provides viscosity assurance. The key factor for which Topical applicators are on demand is that they offer less wastage of medication during mixing and filling of the product.

Based on Application, the market is segmented into Metered Topical Dispensers and Swab Topical Dispensers. Based on Material, the market is segmented into Semi-solid, Liquid and Solid. Based on Regions, the market is segmented into North America, Europe, Asia Pacific, and Latin America, Middle East & Africa.

The market research report covers the analysis of key stake holders of the market. Key companies profiled in the report include Johnson and Johnson, Novartis AG, Merck & Co., Inc., Bausch Health Companies, Inc., Simcro Limited (Datamars SA), Super Brush LLC, SpecializedRx Products, LLC, BIOSRX, Inc., Volumetric, Inc., and Puritan Medical Products Company, LLC.
