Abstracts

Water Purifier Market is expected to register a market value of \$42.5 billion by 2022, growing at a CAGR of 10.8% during the forecast period 2016-2022.

Within the regions, Asia-Pacific held the largest market share in the year 2015. However, LAMEA would be the fastest growing region with the fastest CAGR of 11.1% during the forecast period. Deteriorating quality of drinking water, growing industrialization & urbanization, and growing awareness about waterborne diseases are the factors that would drive the water purifier market in the LAMEA region.

Water purifiers are equipment used to remove the biological contaminants, suspended solids, toxins, harmful gases & chemicals, bacteria, fungi and other impurities from the water and make the water safe to drink.
