## **Abstracts**

The Latin America, Middle East and Africa Dashboard Camera Market would witness market growth of 18.4% CAGR during the forecast period (2020-2026).

The motorists tend towards using these cameras in order to seek additional legal protection for road malfunctions and accidents, the demand for dashboard cameras around the world is expected to increase. Frequent news stories of crashes and road accidents by such devices have contributed significantly to the general public's awareness of the advantages of car DVRs.

Dashboard cameras become more and more popular among drivers worldwide. In many commercial and personal vehicles, it enables the driver to take control of road safety and enables incidents such as collisions, robbery, and vandalism to be recorded. For liability and insured claims, the camera footages obtained from dashboard cameras are now accepted. Insurance companies encourage the use of dashboard cameras with insurance premium discounts to combat false insurance claims.

Dashboards have become an aftermarket accessory for private cars, but the devices become popular for fleet management, risk avoidance and driver monitoring in commercial vehicles. Truck accidents and traffic violations are a huge cost for a car fleet

of any size, and fleet management can recognize and develop additional training that can reduce drive costs through video recording. drivers can take advantage of unsafe driving practices. Camera video from the dashboard is useful when other parties dispute what happened and who could be guilty. These devices have proven valuable to settle disputes and avoid potentially costly judgments.
