Abstracts

The Latin America, Middle East and Africa Data Migration Market would witness market growth of 19% CAGR during the forecast period (2017 – 2023). Technological advancements have led the adoption of effective and efficient systems, designed and customized for applications in specific sectors. New system introductions are pivotal in the current technological oriented time frame. Addition of advanced and new systems would lead to the need for data migration. Additionally, expansion plans such as mergers, acquisition, and restructuring initiatives would further add to the need for data migration solutions. However, quality of data and address verification issues are the factors that would restrain the market growth during the forecast period. Growing inclination to deploy cloud based systems and rising need for disaster recovery for business continuity are the factors that would offer lucrative market opportunities for market participants.
