The Latin America, Middle East and Africa In-Vehicle Infotainment Market would witness market growth of 12.8% CAGR during the forecast period (2019-2025).

In-car infotainment is a suite of digital technologies that are integrated into cars to include entertainment, information, connectivity, and communication services. The entire system uses touchscreens, audio/video (A/V) interfaces, keypads and other forms of devices to provide entertainment and information to drivers and passengers. Advanced infotainment systems allow Bluetooth, Wi-Fi connectivity, integrated voice recognition, video streaming, and smart technology for mobile integration.

The extensive demand for systems that can promote in-car comfort, entertainment and convenience, such as on-demand music, mobile integration, live audio streaming and numerous other entertainment services, is anticipated to drive growth in the in-vehicle entertainment industry. Automakers are also gradually integrating these devices into their vehicles, having realized that these technologies can easily influence customer buying decisions.

The growing use of tablets in cars encourages OEMs to build custom tablets for their vehicles. For example, Audi has developed a 10.1-inch automotive-grade tablet

especially for its vehicles. The tablet can be linked to the vehicle infotainment system and used by passengers seated in the front seats and in the rear seats. The tablet is specifically designed to withstand high temperatures and can also be activated for use outside the vehicle.

Based on Installation Type, the market is segmented into OEM and Aftermarket. Based on Form, the market is segmented into Embedded, Tethered and Integrated. Based on Vehicle Type, the market is segmented into Passenger Car and Commercial Vehicles. Based on Component, the market is segmented into Display Unit/Infotainment Unit, Control Panel, Telematics Control Unit, and Others. Based on countries, the market is segmented into Brazil, Argentina, UAE, Saudi Arabia, South Africa, Nigeria, and Rest of LAMEA.
