Abstracts

The Latin America, Middle East and Africa Organic Baby Food Market would witness market growth of 11.6% CAGR during the forecast period (2017 – 2023). Growing concern over baby's health and nutrition, increase in awareness about benefits of organic products, eco-friendly farming techniques, rise in disposable income of consumers, growth in standard of living are some of the leading factors contributing to the growth of the organic baby food market. Improved distribution channels in the industry have further added the market growth. However, premium pricing and stringent government regulations relating to organic food & beverages are some of the factors that hamper the organic baby food market growth.
