Abstracts

The Latin America, Middle East and Africa Vibration Control System Market would witness market growth of 11.6% CAGR during the forecast period (2020-2026).

Vibration control can increase quality and yield when handling delicate or sensitive components, such as semiconductor wafers. Vibration control systems are drive-based adaptive motion control solution that manages both open-loop and closed-loop oscillation control in real time, harnessing the smarts on motion logic controllers and IndraDrive servo drives. The outcome is vibration damping that is easy to introduce and prevents major productivity reductions.

Owing to increased expenditure and globalization of international players, the vibration control system market in the Middle East & Africa emerges as a prominent industry. South America is also another developing market that is seeing a huge swift uptake of the innovative vibration control system. Countries like Brazil and Argentina are contributing to market expansion, primarily due to government policies encouraging accelerated development in the automotive, O&G, textile and machinery & equipment sectors.

The vibration control system market is highly competitive and fragmented due to the involvement of many well-established companies. These players are pursuing strategies such as partnership, acquisition, product & technology launch and expansion to retain their market positions. The players compete among themselves on the basis of innovation, price, and services. Emerging-market growth is helping companies grow their sales networks.

Based on Type, the market is segmented into Motion Control and Vibration Control.

Motion Control is further segmented into Springs, Hangers, Washers & Bushes and Others. Vibration Control are further bifurcated across Isolating Pads and Isolators & Others. Based on End User, the market is segmented into Manufacturing, Automotive, Electrical & Electronics, Aerospace & Defense, Oil & Gas and Others. Based on countries, the market is segmented into Brazil, Argentina, UAE, Saudi Arabia, South Africa, Nigeria, and Rest of LAMEA.
