Abstracts

The Digital Signage Software Market in Latin America, Middle East and Africa is expected to register a CAGR of 12.8% during the forecast period (2017 – 2023). Digital signage is a vital part of information and advertising network in the present era. Interactive digital signage is used to facilitate two-way communication with end users, with the help of smart phones or other devices used for communication. Signage with beacons, touch screens, sensors, and RFID technologies have gained prominence due to significant uptake of smartphones and other handy communication devices. The optimum use of interactive digital signage leads to superior consumer engagement, increased brand loyalty and also brand recall. The advancement in the interactive digital signage market has helped the market participants to gain insights of consumer behavior and branding, as a result, leading to better investment decisions. The growth of the market is driven due to factors such as demand for digital signage in public and commercial sectors, cost efficiency and assured return on investment.
