## Abstracts

The laws that govern the global trade are many, with inherent complexity, always changing. The organizations willing to participate in the process must review and act on a wide range of regulatory data, which is generally published in varying formats. The challenges that are presented above are complex and difficult to master without a right solution. Growing number of international trades and expenditure on fuel have significantly contributed to the overall operating cost of logistics and transportation segment. The aforementioned factors have compelled many trading companies to add Trade Management solutions. Trade Management solutions help the companies to minimize operating costs and as a result significantly increase operational efficiency.

Based on the type, the Trade Management market is segmented into Solution and Services. The Solution market is segmented into Trade Function, Trade Compliance, Supply Chain Visibility and Trade Finance. Trade Function is further segmented into Import/Export Management, Vendor Management and Others. Trade Compliance is further segmented into Duty Management and Risk & Quality Management. Trade Finance is further segmented into Insurance Management, Invoice Management and Others. The Services market is segmented into Consulting, Implementation and Support & Maintenance. Based on Organization size, the market is segmented into Small & Medium Sized Enterprises and Large Enterprises. Based on Deployment Type, the market is segmented into Cloud based and On-Premise.
