## Abstracts

The North America Air Humidifier Market would witness market growth of 4.82% CAGR during the forecast period (2019–2025).

Consumers face multiple health issues due to inadequate moisture, such as dry eyes, bloody noses and sinuses. Consumer awareness of health has risen, spending more on a hygienic lifestyle, which in turn is anticipated to generate fresh possibilities for players on the worldwide air humidifier market. The United States Department of Labor has set certain rule standards and regulations for humidity control and temperature control in the industrial workplace. This helps avoid fatigue as well as dry air illnesses among employees and provides a good job atmosphere. Furthermore, these rules are also followed by other nations with certain modifications according to the appropriate temperature and atmosphere in that specific nation.

North America was the largest market for air humidifier in 2018 owing to high consumer awareness about the ill effect of dry air and the presence of cold and low humid climate. In addition, vast presence of manufacturers and product promotion from regulatory bodies including American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE) and the U.S. Environmental Protection Agency (USEPA) are expected to further drive the growth of the market.

Based on Application, the market is segmented into Commercial, Industrial and Industrial. Based on Type, the market is segmented into Vaporizers, Impeller Humidifier, Ultrasonic Humidifier and Evaporative Humidifiers. Based on countries, the market is segmented into U.S., Mexico, Canada, and Rest of North America.
