Abstracts

The North America Application Transformation Market would witness market growth of 10.8% CAGR during the forecast period (2019-2025).

Application transformation covers everything from reducing the number of applications within an enterprise to migrating applications to the cloud to ensure that apps meet updated compliance and governance requirements. These services deliver unparalleled experience and knowledge for transforming applications, equipping enterprises' IT for digitalization and enabling new market opportunities to be capitalized.

North America comprises developed countries, such as the US and Canada. These countries have invested significantly in Research and Development (R&D) activities, thereby contributing to the development of innovative technologies. The application transformation market in North America is highly competitive, as countries such as the USA and Canada are focused on R&D and innovation. These countries are early adopters of technologies in various verticals. The US and Canada are also the leading countries in retail, financial services, banking, and other industries, such as transportation and manufacturing. The US is expected to have the highest market share among all the countries in the market during the forecast period. It is a technologically advanced country with strong regulations for various verticals.

Based on Services Type, the market is segmented into Application Integration, Cloud Application Migration, Application Portfolio Assessment, Application Replatforming, UI Modernization and Others. Based on Organization Size, the market is segmented into Large Enterprises and Small & Medium-Sized Enterprises. Based on End User, the market is segmented into Retail, Healthcare & Life Sciences, Manufacturing, Government & Public Sector & Legal, Telecom & IT, BFSI and Others.Based on
