Foodservice equipment market consists of cooking equipment, storage & handling, ware washing, food & beverage preparation equipment, and serving equipment. Companies into manufacturing of foodservice equipment have considerably improvised the product offerings, as the demand for technologically advanced kitchen equipment is growing steadily.

Refrigerated food products are expected to boost the demand for food service equipment. Growth of advanced technology in refrigeration systems has increased the usage of food service equipment. Companies are also coming with advanced refrigeration technology. Companies like General Electric has developed leap in home refrigeration technology. The technology uses no refrigerants or compressors and is 20% more efficient than what is used today. Additionally, growing awareness for energy efficient products is adding more value to the rising demand of food service equipment.

Food Safety has become of the major concern worldwide. According to the research, "Each year in the United States, more than 33 million people become ill as a direct result of foodborne illness". Many Non-profit and other organizations are taking action plan to spread the awareness for the food safety. They are also promoting the usage of food service equipment, which have contributed a lot in the rising demand of the equipment.
