## Abstracts

The North America Medical Spa Market would witness market growth of 11.64% CAGR during the forecast period (2019-2025).

The prevalence of Medical Spa, also known as Med Spa, is increasing rapidly to help people along with achieving the luxurious experience of spa and beauty treatments such as Botox. Relaxation and rejuvenation amalgamation is a combination that consumers appreciate. Med Spa is becoming a trend in the beauty and wellness industry. With that commencing an entrepreneurial venture has become an exciting prospect for entrepreneurs and investors in the beauty and wellness industry.

The importance of a good smile cannot be neglected; this is where dental medical spas become necessary. A good smile reflects health and a good set of teeth is a certain requirement for good confidence. Therefore, teeth whitening, full mouth renovation procedures, etc., are the most common services available in these spas. It also introduced the world to the concept of visiting a dentist for positive results, and not just for an experience of teeth cleaning or tooth filling. A dental spa is a definite new trend motivated by the competition of dental practices, the need for cosmetic dentistry, and also the willingness for dental practitioners to add non-insurance dependent services to their practices.
