Abstracts

The anesthesia monitoring devices market is projected to grow at a CAGR of 12.08% to reach US\$3.062 billion by 2024, from US\$1.545 billion in 2018. Increasing technological advancement in anesthesia monitoring along with the growing ageing population is expected to fuel the growth of the Anesthesia monitoring market. Moreover development in automated record keeping systems and growing number of surgeries due to increasing prevalence of chronic disease also works as the driving factor for the growth of the market. However availability of other conventional techniques ca leads to restraining the growth of the market.

The Anesthesia Monitoring Devices Market – Forecasts from 2019 to 2024 is an exhaustive study that aims to present the key market trends through various chapters focusing on different aspects of the market. The study provides a detailed market overview through the market dynamics sections which detail key market, drivers, restraints, and opportunities in the current market. The report analyzes key opportunity regional markets, and the current technology penetration through lifecycle analysis. The report also analyzes the market through comprehensive market segmentation by application, end user, and geography.

The anesthesia monitoring devices market has been segmented based on application, end user, and geography. By application, the market has been segmented as basic anesthesia monitors and advanced anesthesia monitors. By end user, the market has been segmented as Hospitals and clinics and ambulatory surgery centers.

Regional analysis has been provided with detailed analysis and forecast for the period 2018 to 2024. The global market has been broken down into North America, South America, Europe, Middle East and Africa (MEA), and the Asia Pacific regions. The

report also analyzes 16 countries across these regions with thorough analysis and forecast along with prevailing market trends and opportunities which each of these countries present for the manufacturers.

Major players in anesthesia monitoring devices market have been covered along with their relative competitive position and strategies. The report also mentions recent deals and investments of different market players over the last year. The company profiles section details the business overview, financial performance for the past three years, key products and services being offered along with the recent developments of these important players in anesthesia monitoring devices market.
