Abstracts

Asia Pacific Aseptic Packaging Market was valued at US\$11.548 billion in 2015 and is projected to grow at a CAGR of 11.70% during the forecast period to reach the market size of US\$22.429 billion by 2021. Rising disposable income and improving standard of living, urbanization, and growing health awareness are some of the key factors driving the demand for aseptic packaging solutions in this region. Booming aging population, especially in Japan, and rising number of chronic disease patients has created the need for better healthcare services, thereby providing a great opportunity to vendors for expanding their operations in the region over the forecast period. Moreover, escalating demand for nutraceuticals and cosmeceuticals will further propel this market. However, high capital investment and environmental sustainability issues will restrain the growth of this market over the forecast period.
