Abstracts

Chile infection control market was estimated to be worth US\$53.081 million in 2019 and is projected to witness robust growth during the forecast period. The concerns to implement proper routine checks and disinfection practices are rising among different end-user industries such as food and beverage and pharmaceutical among others so that effective protection to the staff is provided and spread of diseases can be prevented. Hence, this is resulting in an increase in the demand for infection control and prevention methods, causing the market to propel over the forecast period.

However, In Chile, there is a problem with the technical knowledge the healthcare workers and healthcare professionals hold as there is little and incomplete awareness regarding the standard precautions (SP's) and standard measures. The compliance to these measures is imperative and must be taken in order to control the spread of infections in a vulnerable environment such as hospital wards for the treatment of patients diagnosed with serious viruses and bacterial infections that are communicable in nature.

Importance of disinfectants in the prevention and control of infections

Disinfectants are expected to hold a considerable market share and show notable growth over the forecast period. This is attributable to the fact that there has been an increase in the number of diseases due to the untidy surroundings and irresponsible and unhygienic treatment practices among many healthcare workers in many hospitals and treatment centers. Thus, it has led to an increased importance of disinfecting the surroundings to reduce the probability of infection, control it properly and prevent it from spreading further.

Chemical and Food and beverage industries to show notable growth prospects over the forecast period

Chemical industries and food and beverage industries are one of the most important industries that cater to the demand from various end-users and are growing in importance due to the ongoing and changes in the implemented guidelines in order to increase worker safety and consumer safety. The chemical industry followed by the food and beverage industry is expected to hold a significant share over the forecast period and show notable growth prospects. This is increasingly important as the proper handling of food and beverage items is essential to ensure that there is the presence of no adulteration and no bacteria that gets incorporated during the processing, packaging or production or many other processes to ensure the quality of the products reaching the end-user do not deteriorate and loses its integrity. In addition, the proper handling of chemicals is important as the negligence leads to spills and reactions due to the incorporation of certain bacteria and microorganisms, which causes severe damage to the surroundings as well as poses health hazards to the workers as toxic fumes are released into the atmosphere.

Chemical

Contents

1. INTRODUCTION

- 1.1. Market Definition
- 1.2. Market Segmentation

2. RESEARCH METHODOLOGY

- 2.1. Research Data
- 2.2. Assumptions

3. EXECUTIVE SUMMARY

- 3.1. Research Highlights

4. MARKET DYNAMICS

- 4.1. Market Drivers
- 4.2. Market Restraints
- 4.3. Porters Five Forces Analysis
 - 4.3.1. Bargaining Power of Suppliers
 - 4.3.2. Bargaining Power of Buyers
 - 4.3.3. Threat of New Entrants
 - 4.3.4. Threat of Substitutes
 - 4.3.5. Competitive Rivalry in the Industry
- 4.4. Industry Value Chain Analysis

5. CHILE INFECTION CONTROL MARKET BY PRODUCT

- 5.1. Introduction
- 5.2. Disinfectant
- 5.3. Sterilization
 - 5.3.1. Low-Temperature Sterilization
 - 5.3.2. Heat Sterilization
 - 5.3.3. Contract Sterilization

6. CHILE INFECTION CONTROL MARKET BY END-USER INDUSTRY

- 6.1. Introduction
- 6.2. Healthcare
- 6.3. Food and Beverage
- 6.4. Chemical

7. COMPETITIVE INTELLIGENCE

- 7.1. Major Players and Strategy Analysis
- 7.2. Emerging Players and Market Lucrativeness
- 7.3. Mergers, Acquisitions, Agreements, and Collaborations
- 7.4. Vendor Competitiveness Matrix

8. COMPANIES MENTIONED

- 8.1. 3M
- 8.2. Dr?gerwerk AG & Co. KGaA
- 8.3. B. Braun Melsungen AG
- 8.4. Commercial LBF Limited
- 8.5. List is not Exhaustive*
