Abstracts

Denmark infection control market is estimated to attain a market size of US\$102.179 million in 2019. Denmark's healthcare system provides high-quality services where most of them are financed by general taxes. The efficient healthcare system in the country is based on the principle of free and equal access to healthcare facilities for all the citizens, this will drive the market for infection control in the forecast period. Also, the presence of home care services in the country is further burgeoning the market demand in the forecast period and in the upcoming years. Furthermore, Denmark has a tradition of providing dignified care for elderly people. The focus lies on the empowerment of every citizen aimed towards their individual needs and preferences. The major goal lies in maintaining the independence of the geriatric population of the country and efforts are being made for gaining better control of their own life. This is further creating an opportunity for the market to thrive in the forecast period and in the upcoming years.

The provision of free dental healthcare services to children in Denmark is driving the market growth in the forecast period.

Every child and adolescent who is under the age of 18 years has the right to avail free preventive dental care treatment. The service is provided by the public dental clinics or by the practicing dentists in the country. However, these must have an agreement with the municipality. Hence, the market for infection control holds strong potential to proliferate in the forecast period and in the upcoming years. Additionally, for adolescents aged 16 and 17 years do have a choice to attend a private practicing dentist without an agreement with the municipality. Furthermore, the subsidy for the treatment at a private clinic requires approval by the municipality, an adolescent is required to pay up to 35 percent of the cost himself. Thus, the availability of free dental

services will provide a strong impact in a positive manner for the dental infection control market to propagate in the forecast period and in the upcoming years.

Denmark's flourishing life sciences industry is providing strong growth prospects for the market to sustain in the forecast period and in the upcoming years.

According to the Danish Ministry of Industry, Business and Financial Affairs, the country's life sciences industry consisting of around 1,500 life sciences companies and more than 43,000 employees contribute to the research and development, economic progress, and employment. As per the analysis, the life sciences industry growth added value by around 88% in 8 years until 2018. Additionally, productivity increased by two times when compared to the overall economy. The companies accounted to hold more than a third of all the private research and development projects in Denmark. The developments in the life sciences industry are further driven by heavy company investments in research and development. Also, government investments for life sciences education and research are further providing an impetus for significant industrial growth. The country focusses on the education of talented individuals delivering high-quality results and contributing to the country's economic growth as well.

Food and Beverage

Chemical

Contents

1. INTRODUCTION

- 1.1. Market Definition
- 1.2. Market Segmentation

2. RESEARCH METHODOLOGY

- 2.1. Research Data
- 2.2. Assumptions

3. EXECUTIVE SUMMARY

- 3.1. Research Highlights

4. MARKET DYNAMICS

- 4.1. Market Drivers
- 4.2. Market Restraints
- 4.3. Market Opportunities
- 4.4. Porters Five Forces Analysis
 - 4.4.1. Bargaining Power of Suppliers
 - 4.4.2. Bargaining Power of Buyers
 - 4.4.3. Threat of New Entrants
 - 4.4.4. Threat of Substitutes
 - 4.4.5. Competitive Rivalry in the Industry
- 4.5. Industry Value Chain Analysis

5. DENMARK INFECTION CONTROL MARKET ANALYSIS, BY PRODUCT

- 5.1. Introduction
- 5.2. Disinfectant
- 5.3. Sterilization
 - 5.3.1. Low Temperature Sterilization
 - 5.3.2. Heat Sterilization
 - 5.3.3. Contract Sterilization

6. DENMARK INFECTION CONTROL MARKET ANALYSIS, BY END USER

INDUSTRY

- 6.1. Introduction
- 6.2. Healthcare
- 6.3. Food and Beverage
- 6.4. Chemical

7. COMPETITIVE ENVIRONMENT AND ANALYSIS

- 7.1. Major Players and Strategy Analysis
- 7.2. Emerging Players and Market Lucrativeness
- 7.3. Mergers, Acquisitions, Agreements, and Collaborations
- 7.4. Vendor Competitiveness Matrix

8. COMPANY PROFILES

- 8.1. 3M
- 8.2. Medtronic
- 8.3. B. Braun Melsungen AG
- 8.4. Becton, Dickinson and Company
- 8.5. Cantel Medical
- 8.6. List is not Exhaustive*
