## Abstracts

The dental implants market is projected to grow at a CAGR of 8.76% during the forecast period to reach US\$7.955 billion by 2024, from US\$4.806 billion in 2018. Rising focus on oral health care across the globe is significantly boosting the demand for dental implants. The growing number of population aged above 60 is further augmenting the growth of dental implants market. According to the United Nations statistics, the global geriatric population (60 years or over) is projected to increase from 962 million in 2017 to nearly 2.1 billion by 2050. Another major factor that is leading to rising demand for dental implants is the emerging popularity of cosmetic dentistry across different regions. Technological advancements in oral implantology will continue to propel the growth of the dental implants market during the next five years. However, the high cost of dental implants in certain countries is restraining the growth of the dental implants market.
