Abstracts

Electric Vehicle Charging Stations market is projected to grow at a CAGR of 17.99% during the forecast period. Growing adoption of electric vehicles worldwide is the major driver of electric vehicle charging stations market. Rising environmental concerns and supporting government policies and initiatives to boost the adoption of electric vehicles across different regions is significantly augmenting the demand for electric vehicle charging stations. Rising investments, both public and private, in developing electric vehicle charging infrastructure is also projected to bolster the growth of electric vehicle charging stations market during the forecast period. Geographically, Electric Vehicle Charging Stations market is segmented into North America, South America, Europe, Middle East and Africa, and Asia Pacific. North America holds the major market share owing to high investment by government as well as private players to develop electric vehicle charging station market.

This research study examines the current market trends related to the demand, supply, and sales, in addition to the recent developments. Major drivers, restraints, and opportunities have been covered to provide an exhaustive picture of the market. The analysis presents in-depth information regarding the development, trends, and industry policies and regulations implemented in each of the geographical regions. Further, the overall regulatory framework of the market has been exhaustively covered to offer stakeholders a better understanding of the key factors affecting the overall market environment.

Identification of key industry players in the industry and their revenue contribution to the overall business or relevant segment aligned to the study have been covered as a part of competitive intelligence done through extensive secondary research. Various studies and data published by industry associations, analyst reports, investor presentations, press releases and journals among others have been taken into consideration while conducting the secondary research. Both bottom-up and top-down approaches have

been utilized to determine the market size of the overall market and key segments. The values obtained are correlated with the primary inputs of the key stakeholders in the Electric Vehicle Charging Stations market value chain. The last step involves complete market engineering which includes analyzing the data from different sources and existing proprietary datasets while using various data triangulation methods for market breakdown and forecasting.

Market intelligence is presented in the form of analysis, charts, and graphics to help the clients in gaining faster and efficient understanding of the Electric Vehicle Charging Stations market.

Major industry players profiled as part of the report are ABB LTD, HONG KONG EV POWER LIMITED, GENERAL ELECTRIC, CHARGEPOINT, INC., and XCHARGE, INC among others.

Segmentation

Electric Vehicle Charging Stations market has been analyzed through following segments:

- By Type of Electric Vehicle
 - o Battery Electric Vehicles (BEVs)
 - o Plug-In Hybrid Electric Vehicles (PHEVs)
- By Type of Charging Station
 - o AC Charging Station
 - o DC Charging Station
- By Geography
 - o North America
 - § U.S.
 - § Canada
 - § Mexico
 - § Others
 - o South America
 - § Brazil
 - § Argentina
 - § Chile
 - § Others
 - o Europe
 - § Norway
 - § UK
 - § Germany
 - § Netherlands
 - § Italy

- § France
- § Others
 - o Middle East and Africa
- § UAE
- § Israel
- § South Africa
- o Asia Pacific
- § China
- § Japan
- § Hong Kong
- § India
- § Australia
- § Others
