Abstracts

The extruded low-density polyethylene (LDPE) market is projected to grow at a CAGR of 1.79% during the 2018-2024 period. The demand for LDPE extrusion is mainly driven by the packaging sector. Its increasing usage in flexible packaging is boosting the LDPE extrusion market growth. LDPE films are used to package rice and other miscellaneous edible product items. Thus, the market is poised to grow at a substantial rate over the forecast period on account of burgeoning preference and popularity of flexible packaging in both developed and developing countries.

The Extruded Low-Density Polyethylene (LDPE) Market – Forecasts from 2019 to 2024 is an exhaustive study that aims to present the key market trends through various chapters focusing on different aspects of the market. The study provides a detailed market overview through the market dynamics sections which detail key market, drivers, restraints, and opportunities in the current market. The report analyzes key opportunity regional markets, and the current technology penetration through lifecycle analysis. The report also analyzes the market through comprehensive market segmentation by material type, end-user, and geography.

The extruded LDPE market has been segmented based on the end-user industry, and geography. By end-user industry, the market has been segmented as construction, packaging, healthcare, and others.

Regional analysis has been provided with detailed analysis and forecast for the period 2018 to 2024. The global market has been broken down into North America, South America, Europe, Middle East and Africa (MEA), and the Asia Pacific regions. The report also analyzes 15 countries across these regions with thorough analysis and forecast along with prevailing market trends and opportunities which each of these

countries present for the manufacturers.

Major players in the extruded LDPE market have been covered along with their relative competitive position and strategies. The report also mentions recent deals and investments of different market players over the last year. The company profiles section details the business overview, financial performance for the past three years, key products and services being offered along with the recent developments of these important players in the extruded LDPE market.
