Abstracts

France infection control market is poised to attain a market size of US\$1,395.436 million in 2025. Healthier and cleaner workplace surrounding are of utmost importance in government institutions, hospitals, healthcare institutions, pharmaceutical labs among other places, in order to keep the rate of transmission of air-borne and surface-borne infections and serious diseases at bay to minimize the threat posed to the other individuals. This is calling for action and steps by the healthcare professionals and the healthcare inspectors in order to impose necessary practices such as regular sanitizing, disinfection and prevention practice, which has led to the rise in the demand for the pharmaceutical, surface, and instrument disinfectants among other sterilization machines, and as a result, it is fueling the market growth.

Moreover, with number of people going for surgical procedures has increased among the middle-aged and older population for treatments such as colonoscopy, cataract surgery, hip replacement surgeries over the past few years which has propelled the demand for effective instrument sterilization machines. Thus, this factor is also contributing to the market growth over the forecast period.

Furthermore, the market players are increasingly participating and involved in the market through enhanced product offerings in order to cater to the rising demand among the consumers effectively and to contribute to the growth of the market over the forecast period. For instance, STERIS, one of the leading companies dealing in the provision of infection prevention products and solutions offers a wide range of infection control and prevention products under their portfolio. One of the product lines under their portfolio is the Surface disinfectants and cleaners. Under this category, it sells a product called the "Spor-Klenz Sporicidal Disinfectants and Sterilants", which is offered in three different types called the "Spor-Klenz Ready-to-Use Sterilant", "Spor-Klenz

Concentrate Cold Sterilant”, and the “Spor-Klenz Ready-to-Use ETO Processed Sterilant”. All of these products are easily dilutable and soluble, have low toxicity profiles, are increasingly flexible in terms of use as either a sanitizer, sterilant, disinfectant or sporicidal and they require no activation to perform the functions. They are also involved in the sale of other infection control products such as different types of pharmaceutical disinfectants among other products.

Food and Beverage industry to hold a significant market share and show notable growth over the forecast period

Food and Beverage industry is among the key industries that make use of disinfectants and sterilization solutions and products in order to maintain a proper and hygienic working environment so as to mitigate the chances of other contracting surface borne or airborne diseases. Food and Beverage industry is estimated to hold a notable share over the forecast period and increase its share over the forecast period owing to the fact that cleanliness and hygiene are very important when dealing with food and all the regulatory food standards need to be followed such as the HACCP among others. In addition, special care is taken when dealing with meat and seafood products to prevent the spread of diseases to the consumers.

Contents

1. INTRODUCTION

- 1.1. Market Definition
- 1.2. Market Segmentation

2. RESEARCH METHODOLOGY

- 2.1. Research Data
- 2.2. Assumptions

3. EXECUTIVE SUMMARY

- 3.1. Research Highlights

4. MARKET DYNAMICS

- 4.1. Market Drivers
- 4.2. Market Restraints
- 4.3. Porters Five Forces Analysis
 - 4.3.1. Bargaining Power of Suppliers
 - 4.3.2. Bargaining Power of Buyers
 - 4.3.3. Threat of New Entrants
 - 4.3.4. Threat of Substitutes
 - 4.3.5. Competitive Rivalry in the Industry
- 4.4. Industry Value Chain Analysis

5. FRANCE INFECTION CONTROL MARKET BY PRODUCT

- 5.1. Introduction
- 5.2. Disinfectant
- 5.3. Sterilization
 - 5.3.1. Low-Temperature Sterilization
 - 5.3.2. Heat Sterilization
 - 5.3.3. Contract Sterilization

6. FRANCE INFECTION CONTROL MARKET BY END-USER INDUSTRY

- 6.1. Introduction
- 6.2. Healthcare
- 6.3. Food and Beverage
- 6.4. Chemical

7. COMPETITIVE INTELLIGENCE

- 7.1. Major Players and Strategy Analysis
- 7.2. Emerging Players and Market Lucrativeness
- 7.3. Mergers, Acquisitions, Agreements, and Collaborations
- 7.4. Vendor Competitiveness Matrix

8. COMPANIES MENTIONED

- 8.1. 3M
- 8.2. Drägerwerk AG & Co. KGaA
- 8.3. Getinge AB
- 8.4. Medivators Inc
- 8.5. STERIS plc
- 8.6. List is not Exhaustive*
