Abstracts

Full body scanner market is expected to grow from US\$236.581 million in 2017 to US\$428.938 million in 2022, at a compound annual growth rate of 12.64%. A full body scanner is a specifically designed device used for security screening purposes, and for revealing objects such as weapons, explosives concealed under clothing without making physical contact with the body or without removing the clothes. These are widely used at the public places for security reasons. Increasing number of terror attacks, drug trafficking, and illegal weapons sale are major factors driving the full body scanner market globally. Furthermore, the need for more security in public places such as railway stations, airports, bus terminals, shopping malls also contribute significantly to this industry market. Rise in industrial sectors, and increased infrastructure augments the demand of full body scanners. Geographically, North America being the most technologically advanced nation leads the full body scanner market owing to the need of providing more security. Asia Pacific will also drive the market due to more concentrated terror activities in the region. The rise in infrastructure will also propel the demand for these devices.

This research study examines the full body scanner market on the basis of various segments – by type, by application, and by geography. Major drivers, restraints, and opportunities have been mentioned to provide an exhaustive picture of the market. Furthermore, the current market trends related to the demand, supply, and sales, in addition to the recent developments, have been provided in this report. The report also analyzes key players in the full body scanner market. The report provides comprehensive forecast up to the period 2022 for various key segments, with 2016 as the base year.

The analysis presents in-depth information regarding the development, trends, and

industry policies and regulations implemented in each of the geographical segments. Moreover, the research study analyzes the overall regulatory framework of full body scanner market, offering stakeholders a better understanding of the key factors affecting the overall market environment.

The first step towards determining the full body scanner market size involves identifying key players and the revenue contribution of the overall business or relevant segment aligned to the study in consideration through extensive secondary research. This also includes various studies and data published by industry associations, analyst reports, investor presentations, press releases and journals among others. Both bottom-up and top-downs approaches are utilized to determine the market size of the overall market and key segments. The values obtained are correlated with the primary inputs of the key stakeholders in the full body scanner value chain, such as C-Level Executives, Directors, and Managers among others across key enterprises operating as manufacturers, suppliers, and distributors. The last phase is providing intelligence in the form of presentation, charts, graphics and other different formats helping the clients in faster and efficient understanding of the market. Under this phase complete market engineering is involved which includes analyzing the gathered data from different sources and existing proprietary datasets while using various data triangulation methods for market breakdown and forecasting.

Segments covered under the full body scanner market report are as below:

By Type

Millimeter Wave Scanner
X-Ray Scanner

By Application

Transport
Critical Infrastructure
Industrial

By Geography

Americas
North America
South America

Europe Middle East and Africa

Europe

Middle East and Africa

Asia Pacific

Key industry players profiled as part of this section are L3 Technologies, Adani system, Rapiscan, ODSecurity, and Smiths Detection among others.

Contents

1. INTRODUCTION

2. RESEARCH METHODOLOGY

3. EXECUTIVE SUMMARY

4. MARKET DYNAMICS

- 4.1. Segmentation
- 4.2. Drivers
- 4.3. Restraints
- 4.4. Opportunities
- 4.5. Supplier Outlook
- 4.6. Industry Outlook
- 4.7. Porter's 5 Forces Analysis
- 4.8. Industry Value Chain Analysis
- 4.9. Industry Regulations
- 4.10. Scenario Analysis

5. FULL BODY SCANNER MARKET FORECAST BY TYPE (US\$ BILLION)

- 5.1. Millimeter Wave Scanner
- 5.2. X-Ray Scanner

6. FULL BODY SCANNER MARKET FORECAST BY APPLICATION (US\$ BILLION)

- 6.1. Transport
- 6.2. Critical Infrastructure
- 6.3. Industrial

7. FULL BODY SCANNER MARKET FORECAST BY GEOGRAPHY (US\$ BILLION)

- 7.1. Americas
 - 7.1.1. North America
 - 7.1.2. South America
- 7.2. Europe Middle East and Africa
 - 7.2.1. Europe

- 7.2.2. Middle East and Africa
- 7.3. Asia Pacific

8. COMPETITIVE INTELLIGENCE

- 8.1. Market Share Analysis
- 8.2. Investment Analysis
- 8.3. Recent Deals
- 8.4. Strategies of Key Players

9. COMPANY PROFILES

- 9.1. L3 Technologies
- 9.2. Adani system
- 9.3. Rapiscan
- 9.4. OD Security
- 9.5. Smiths Detection
- 9.6. Westminster International Ltd
- 9.7. Xscann Technologies
- 9.8. Braun International
- 9.9. OSI Systems
