## Abstracts

Global Glass Packaging Market is estimated to reach US\$62.087 billion by 2022 at a CAGR of 4.17% over the forecast period from the current estimate of US\$50.625 billion in 2017. Increasing alcoholic drinks consumption and growth in investment in the pharmaceutical sector will drive the demand for glass packaging solutions over the forecast period. Rising disposable income, changing lifestyle, growing demand for fruit and soft drinks are some of the other factors driving the demand for glass packaging solutions. Recyclability and inertness are some of the major advantages offered by glass packaging products, which makes them more suitable for various packaging applications. Even though this market is expected to witness moderate growth over the next five years, significant challenge will be posed by plastic packaging solutions.
