Abstracts

The global cystoscope market is projected to grow at a CAGR of 6.30% during the forecast period of 2017-2023. Cystoscope is a thin, telescope-like tube with a light and tiny camera attached instrument used to perform cystoscopy, also known as cystourethroscopy that allows physician to examine and treat the lower urinary tract (urethra, prostate, bladder neck, and bladder). The cystoscope is inserted into bladder through urethra for the evaluation, treatment or diagnoses of the conditions such as Bladder cancer, haematuria, frequent urinary tract infections (UTIs), Urinary blockage, Urinary stones etc. making cystoscopy procedures one of the most commonly performed procedures in the urology office settings.

Rising incidences of the urinary tract diseases to boost the market

The growth in the global cystoscope market may be attributed to the rising prevalence of the urinary tract diseases globally. As per the data by National Kidney foundation, there are approximately 10 million doctor visit for urinary tract infections in the US. Similar rising incidences of other diseases such as prostate cancer, stones, bladder cancer etc. will also boost the market during the given time frame. As per Cancer research UK, prostate cancer is the most common cancer in men with around 47,700 new prostate cancer cases in the UK every year. However, complications such as infections, bleeding and swollen urethra that may arise during cystoscopy procedure might restrain the growth of the market during the forecast period.

North America to hold significant share

Geographically, North America is expected to hold a significant share owing to the well-established healthcare infrastructure in the region. Quick adoption and implementation of the latest technologies along with the favorable reimbursement policies will also bolster the market in the region during the forecast period. Asia Pacific owing to the huge patient base coupled with the improving healthcare infrastructure is estimated to show the robust growth through to 2023.
