Abstracts

The global smart highway market is expected to be valued at US\$16.916 billion in 2018 and is projected to reach US\$40.607 billion by 2023 exhibiting a CAGR of 19.14% during the forecast period. This market will witness a high growth in the next five years owing to the rise in the demand for intelligent traffic management system. Advancement in the computer related technologies have added to the improvement in the transport sector. Day to day rise in population and increasing fatal accidents has led to the construction of smart highways across the globe. Also growing traffic congestion which is a big issue and blocked roads resulting from heavy hailstorms, and landslides in hilly areas increase the possibility of accidents leading to high loss of lives and property. The integrated smart systems use digital sensors which can acquire and record data in a landslide, poor weather conditions, and traffic congestions and can display forecasts and alerts on LED screens across the highway. Construction of smart highways has paved the way for a more efficient and sustainable road transport system with a significant decrease in pollution. The key opportunities of the smart highway market are the deployment of advanced technologies, increasing government schemes for raising funds and decent law enforcement, and tremendous funding by different organizations in infrastructure expansion. Smart highways include pavements for photovoltaic cells which will reduce the consumption of power from the conventional sources. The power produced by these solar cells will help in highway lighting, power supply to the public conveniences and toll booths.

On the basis of technology, smart highway market is segmented as smart transport management system, smart traffic management system, smart communication system, and smart monitoring system. Increase in population and the need for constructing robust and intelligent transportation system has led to the evolution of smart highways. Electronic toll collection along with lane departure warning and automatic number plate

recognition is the latest technological advancements which have catalyzed the growth of smart highway networks across the globe.

On the basis of geography, smart highway market is segmented as North America, Europe, Middle East & Africa, Asia-Pacific, and South America. Development and adoption of smart construction techniques are highest in North America owing to the huge investments made in the sectors like electric and driverless vehicles. Europe will also emerge as a leading player in global smart highway market due to immense investments made in this sector. Asia-Pacific will emerge as the largest market in recent years owing to the high investments being made and increase in adoption of smart highway techniques.

Competitive Landscape

Smart highway market is highly competitive due to the presence of well diversified international, regional, and local players. However, some big international players dominate the market share owing to the enormous investments being made, and their brand image and market reach. With high market growth rate and increase in demand, this sector is attracting more players to enter the market resulting in a more competitive smart highway market. Competitive landscape provides with the strategy and investment details in order to boost up their presence.

Some of the key players of smart highway market included in the report are Kapsch TrafficCom AG, CISCO Inc, IBM Corporation, Schneider Electric, Siemens AG, Indra, Alcatel-Lucent Enterprise, Huawei Technologies Co. Ltd, and Xerox Corporation.

Market Segmentation

The smart highway market has been segmented on the basis of technology, display, deployment, service, and geography.

By Technology

Smart Transport Management System

Smart Traffic Management System

Smart Communication System

Smart Monitoring System

By Display

Digital Signage

Variable Signage

By Deployment
On Premise
On Cloud
By Service
Consultancy Service
Operation and Maintenance Service
Managed Service
By Geography
North America
South America
Europe
Middle East & Africa
Asia-Pacific

Contents

1. INTRODUCTION

- 1.1. Market Definition
- 1.2. Scope of the study
- 1.3. Currency
- 1.4. Assumptions
- 1.5. Base, and forecast year timeline

2. RESEARCH METHODOLOGY

- 2.1. Research Design
- 2.2. Secondary Sources
- 2.3. Validation

3. KEY FINDINGS OF THE STUDY

4. MARKET DYNAMICS

- 4.1. Drivers
- 4.2. Restraints
- 4.3. Opportunities and Market Trends
- 4.4. Market Segmentation
- 4.5. Porter's Five Forces Analysis
 - 4.5.1. Bargaining Power of Suppliers
 - 4.5.2. Bargaining Power of Buyers
 - 4.5.3. Threat of New Entrants
 - 4.5.4. Threat of Substitutes
 - 4.5.5. Competitive Rivalry in the Industry
- 4.6. Industry Value Chain Analysis
- 4.7. Industry Regulations
- 4.8. Scenario Analysis

5. GLOBAL SMART HIGHWAY MARKET FORECAST BY TECHNOLOGY (US\$ BILLION)

- 5.1. Introduction
- 5.2. Smart Transport Management System

- 5.3. Smart Traffic Management System
- 5.4. Smart Communication System
- 5.5. Smart Monitoring System

6. GLOBAL SMART HIGHWAY MARKET FORECAST BY DISPLAY (US\$ BILLION)

- 6.1. Introduction
- 6.2. Digital Signage
- 6.3. Variable Signage

7. GLOBAL SMART HIGHWAY MARKET FORECAST BY DEPLOYMENT (US\$ BILLION)

- 7.1. Introduction
- 7.2. On Premise
- 7.3. On Cloud

8. GLOBAL SMART HIGHWAY MARKET FORECAST BY SERVICE (US\$ BILLION)

- 8.1. Consultancy Service
- 8.2. Operation and Maintenance Service
- 8.3. Managed Service

9. GLOBAL SMART HIGHWAY MARKET FORECAST BY GEOGRAPHY (US\$ BILLION)

- 9.1. Introduction
- 9.2. North America
- 9.3. South America
- 9.4. Europe
- 9.5. Middle East and Africa
- 9.6. Asia-Pacific

10. COMPETITIVE INTELLIGENCE

- 10.1. Market Share Analysis
- 10.2. Strategies of Key Players
- 10.3. Recent Investment and Deals

11. COMPANY PROFILES

11.1. Cypress Semiconductor

11.1.1. Overview

11.1.2. Financials

11.1.3. Product and Services

11.1.4. Key Developments

11.2. Samsung

11.2.1. Overview

11.2.2. Financials

11.2.3. Products and Services

11.2.4. Key Developments

11.3. Macronix International Co., Ltd

11.3.1. Overview

11.3.2. Financials

11.3.3. Products and Services

11.3.4. Key Developments

11.4. Micron Technology, Inc

11.4.1. Overview

11.4.2. Financials

11.4.3. Products and Services

11.4.4. Key Developments

11.5. GigaDevice Semiconductor (Beijing), Inc

11.5.1. Overview

11.5.2. Financials

11.5.3. Products and Services

11.5.4. Key Developments

11.6. Integrated Silicon Solution Inc.

11.6.1. Overview

11.6.2. Financials

11.6.3. Products and Services

11.6.4. Key Developments

11.7. Microchip Technology Inc.

11.7.1. Overview

11.7.2. Financials

11.7.3. Products and Services

11.7.4. Key Developments

11.8. Winbond

11.8.1. Overview

11.8.2. Financials

11.8.3. Products and Services

11.8.4. Key Developments
