Abstracts

The global smartphone 3D camera market is projected to witness a compound annual growth rate of 55.32% during the forecast period to reach a total market size of US\$2.819 billion by 2022, increasing from US\$0.312 billion in 2017. The proliferation of smartphones and continuous improvements in the technology are expected to augment the market growth of the smartphone 3D camera over the projected period. Changing lifestyles and increasing spending capacity of the people will increase the popularity of 3D camera in smartphones due to their features like real sensing of objects with HD picture quality. However, the high price of the technology will impede its growth in some regions.

Research Methodology

The report provides a brief introduction to the market and deals with detailed research methodology for calculating market size and forecasts, secondary data sources used and the primary inputs which were taken for data validation. This section also outlines various segments which have been covered as part of the report.

Market Dynamics

The next section provides comprehensive market dynamics through an overview section along with growth drivers, challenges, and opportunities which exist in the current market. This section of the report also provides global and regional regulations which are determining the market growth and industry value chain analysis of the global smartphone 3D camera market. Complete industry analysis has also been covered through Porter's five forces model as a part of this report section.

Competitive Insight

The major players discussed in this report include Toshiba Corporation, Sony Corporation, Sharp Corporation, Infineon Technologies AG, Softkinetic International SA/NV, and Xperi Corporation among few others.

Segmentation

In the report, global Smartphone 3D camera market has been segmented by technology, resolution, and geography:

By Technology

Stereoscopic Camera

Time-of-Flight (TOF)

By Resolution

Below 8 MP

8 MP - 16 MP

Above 16 MP

By Geography

North America

South America

Europe

Middle East and Africa (MEA)

Asia Pacific (APAC)
