Abstracts

The Global Specialty Oxidants Market is projected to witness a compound annual growth rate of 4.15% over the forecast period 2018 to 2023. The global specialty oxidants market is anticipated to grow rapidly over the forecast period owing to their wide array of application across various verticals such as textiles, paper and pulp, healthcare, and personal care.

Increasing usage of specialty oxidants such as sodium chlorate and hydrogen peroxide as bleaching agents and de-inking during recycling of paper in the paper industry coupled with the recycled paper market growth is expected to provide impetus to specialty oxidants market growth.

Specialty oxidants are also used in various industrial procedures for chemical synthesis, for extraction procedures for vanadium and uranium. In addition, specialty oxidants are also used as raw materials for the production of propylene oxide and are widely acceptable in hydrogen propylene oxide (HPPO) process. Furthermore, escalating demand for specialty oxidants in the healthcare & personal care industry applications such as sterilization, toothpaste, sanitizer, bleaching is also predicted to positively influence the market size growth over the forecast period. Additionally, specialty oxidants are used as a cleaning agent across the electronics industry. Thus, considering the growth of electronics industry, especially in the Southeast Asian countries is anticipated to offer lucrative market growth opportunities for global specialty oxidants market.

The Asia Pacific region is expected to dominate the global specialty oxidants market over the next five years due to increased utilization of specialty oxidant in end-use industries such as pulp & paper, wastewater & water treatment, food processing among

others

Research Methodology

The report provides a brief introduction to the market and deals with detailed research methodology for calculating market size and forecasts, secondary data sources used and the primary inputs which were taken for data validation. This section also outlines various segmentations which have been covered as part of the report.

Market Dynamics

This section provides comprehensive market dynamics through an overview section along with growth drivers, challenges, and opportunities which exist in the current market. This section of the report also provides supplier and industry outlook as a whole; key industry, global and regional regulations which are determining the market growth and a brief technological aspect of Specialty Oxidants. Complete industry analysis has also been covered through Porter's five forces model as a part of this report section.

Segmentation

Global Specialty Oxidants market is segmented by type, application, end-user industry, and geography as below:

By Type

Sodium Chlorate

Hydrogen Peroxide

Others

By Application

Defoliant

Bleaching

Propulsion

Cleaning & Extraction

Others

By End-User Industry

Healthcare

Personal Care

Wastewater & Water Treatment

Food Processing

Pulp & Paper

Textile

others

By Geography

North America

South America

Europe

Middle East and Africa (MEA)

Asia- Pacific (APAC)
