Abstracts

The global hybrid adhesives and sealants market is projected to witness a compound annual growth rate of 6.02% during the forecast period of 2017 to 2023. The global hybrid adhesives and sealants market is growing rapidly with increasing application of these adhesives and sealants in building & construction, automotive, industrial assembly and other sectors. Major market players are investing in the R&D to develop advanced products which can overcome the shortcomings of the conventional adhesives and sealants. Faster fixtures, increased productivity, and reduced cost are some of the benefits of these hybrid adhesives and sealants.

This research study examines the current market trends related to the demand, supply, and sales, in addition to the recent developments. Major drivers, restraints, and opportunities have been covered to provide an exhaustive picture of the market. The analysis presents in-depth information regarding the development, trends, and industry policies and regulations implemented in each of the geographical regions. Further, the overall regulatory framework of the market has been exhaustively covered to offer stakeholders a better understanding of the key factors affecting the overall market environment.

Identification of key industry players in the industry and their revenue contribution to the overall business or relevant segment aligned to the study has been covered as a part of competitive intelligence done through extensive secondary research. Various studies and data published by industry associations, analyst reports, investor presentations, press releases and journals among others have been taken into consideration while conducting the secondary research. Both bottom-up and top-down approaches have been utilized to determine the market size of the overall market and key segments. The values obtained are correlated with the primary inputs of the key stakeholders in the

global hybrid adhesives and sealants value chain. The last step involves complete market engineering which includes analyzing the data from different sources and existing proprietary datasets while using various data triangulation methods for market breakdown and forecasting.

Market intelligence is presented in the form of analysis, charts, and graphics to help the clients in gaining faster and efficient understanding of the market.

Major industry players profiled as part of the report are 3M, Forgeway, American Sealants, Inc., Dymax Corporation, H.B. Fuller Company, Henkel AG & Co. KGaA, Hermann Otto GmbH, Soudal inc. and LORD Corporation among others.

Segmentation

The global hybrid adhesives and sealants market is segmented by hybrid adhesive type, hybrid sealant type, end-user industry, and geography.

By Hybrid Adhesive Type

- Reactive Hybrids

- Dispersed Phase Hybrids

By Hybrid Sealant Type

- Silyl-modified polyethers (MS polymers)

- Silyl-modified polyurethanes (SPUR polymers)

By End-User Industry

- Automotive

- Construction

- Manufacturing

- Aerospace
