Abstracts

The Integrated Passive Devices market is projected to grow at a CAGR of 9.41% to reach a total market size of US\$2.008 billion in 2022, from US\$1.401 billion in 2017. This research study examines the Integrated Passive Devices market on the basis of various segments - by base, application, and geography. Major drivers, restraints, and opportunities have been mentioned to provide an exhaustive picture of the market. Furthermore, the current market trends related to the demand, supply, and sales, in addition to the recent developments, have been provided in this report. The report also analyzes key players in the Integrated Passive Devices market. The report provides comprehensive forecast up to the period 2022 for various key segments, with 2016 as base year.

The analysis presents in-depth information regarding the development, trends, and industry policies and regulations implemented in each of the geographical segments. Moreover, the research study analyzes the overall regulatory framework of Integrated Passive Devices market, offering stakeholders a better understanding of the key factors affecting the overall market environment.

The first step towards determining the Integrated Passive Devices market size involves identifying key players and the revenue contribution of the overall business or relevant segment aligned to the study in consideration through extensive secondary research. This also includes various studies and data published by industry associations, analyst reports, investor presentations, press releases and journals among others. Both bottom-up and top down approaches are utilized to determine the market size of the overall market and key segments. The values obtained are correlated with the primary inputs of the key stakeholders in the Integrated Passive Devices value chain, who are C-Level Executives, Directors, and Managers among others across key enterprises operating as

manufacturers, suppliers, and distributors. The last phase is providing intelligence in the form of presentation, charts, graphics and other different formats helping the clients in faster and efficient understanding of the market. Under this phase complete market engineering is involved which includes analyzing the gathered data from different sources and existing proprietary datasets while using various data triangulation methods for market breakdown and forecasting.

Segments covered under the Integrated Passive Devices market report are as below:

By Base

Silicon

Non- Silicon

By Application

LED Lighting

RF IPD

EMS & EMI Protection IPD

Digital & Mixed Signal IPD

By Geography

Americas

North America

South America

Europe Middle East and Africa

Europe

Middle East and Africa

Asia Pacific

Key industry players profiled as part of this section are Texas Instruments Incorporated, Johanson Technology, Inc., STATS ChipPAC Pte. Ltd., STMicroelectronics, Murata Manufacturing Co., Ltd, ON Semiconductor, and OnChip Devices, Inc.
