## Abstracts

Italy probiotics market is estimated to grow and reach the value of US\$722.526 million by 2025. Probiotics are effective in improving gut-related disorders related to digestion, intestinal tracts, and bowel function. Growing awareness regarding the relationship between diet and health is augmenting the demand for probiotic food and beverage products and dietary supplements that enhance health while providing basic nutrition. Changing food pattern consumption coupled with the increasing number of people from these diseases is leading to the growing adoption of probiotics in daily diet. Growing health awareness and rising disposable incomes particularly in developing economies will bolster the growth of the probiotics market in the coming years.
