Abstracts

Liquid Encapsulation Market is expected to grow at a compound annual growth rate of 6.10% over the period 2017 to 2022. Liquid encapsulation is a process by which a material such as a polymer is applied on devices for their protection. Rapidly expanding electronics market, growing trend towards miniaturization of devices, increasing investment from the public and private firms are some of the key factors contributing to the growth of this market. Growing need of advanced packaging technologies for automotive electronics applications is also complementing the market growth.

Research Methodology

The first section of the report deals with detailed research methodology for calculating market size and forecasts, secondary data sources used and the primary inputs which were taken for data validation. This section also outlines various segmentation which has been covered as part of the report.

Market Dynamics

Next section provides comprehensive market dynamics through an overview section along with growth drivers, challenges, and opportunities which exist in the current market. This section of the report also provides supplier and industry outlook as a whole; key industry, global and regional regulations which are determining the market growth and brief technological aspects of Liquid encapsulation. Complete industry analysis has also been covered by Porter's five forces model as a part of this report section.

Segmentation

Thirdly, Liquid encapsulation market has been segmented on the basis of type Encapsulation Material, Product, and Application. On the basis of encapsulation material, the market is segmented into Epoxy resin and Epoxy-modified resin. Under Product; Integrated circuit, Optoelectronics, and Sensors have been covered. Under application, the market is segmented into Automotive, Communication and Technology, Consumer Electronics and Manufacturing. Detailed comprehensive forecast with analysis has also been covered as part of this section.

Important regions for vendors in terms of market size is covered through detailed geographical segmentation. Geographical regions covered as a part of this section are Americas, Europe Middle East and Africa and Asia Pacific.

Market Players

Finally, competitive intelligence section deals with major players in the market, their market shares, growth strategies, products, financials, and recent investments among others. Key industry players profiled as part of this section are Hitachi Chemical, BASF, Sumitomo Bakelite, Shin-Etsu Chemical, Panasonic Corporation, KYOCERA Chemical Corporation, and Epic Resins along with others.
