Abstracts

Malaysia infection control market is projected to grow at a CAGR of 7.65% of between 2019 and 2025. The number of individuals belonging to the middle-aged and the geriatric population are visiting the hospitals more frequently for surgical procedures and other infectious disease treatments. Cataract is a problem that affects the majority of the geriatric population and forces them to get treatments, which is one of the reasons that are increasing demand for infection control. In conjunction, the increase in the number of dental procedures in the geriatric population due to reduced calcium levels in the teeth and the weekend roots also requires fillings and tooth extraction, which also requires sterile equipment. Therefore, these factors are bolstering the market growth.

Furthermore, the positive involvement and contributions of market players to boost the market growth over the forecast period, and to increase their market share and maximize their profits are being facilitated by the players by offering products among other methods. For instance, 3M, one of the leading multinational conglomerates, dealing with the provision of solutions and products in order to cater to the demands from the industries and industry verticals such as worker safety, health care, and consumer goods. It offers different products such as Hand Hygiene solutions under its Avagard product series. The products offered are "Avagard Surgical and Healthcare Personnel Antiseptic". This hand hygiene product has been approved by the FDA NDA and has proven qualities such as acting as an effective antiseptic with ingredients that are capable of showing immediate and long-term action. The product is designed in such a way that it can be easily deployed either using brush or brushless and without water, thus avoiding the contact with any surface and decrease the chances of infecting the patients or other surroundings.

Sterilization to grow at a significant pace over the forecast period

Sterilization is a method that makes uses of different temperature ranges in order to kill the bacteria and viruses that may be present on various instruments and medical equipment. Sterilization is basically of three types, which are low-temperature sterilization, heat sterilization, and contract sterilization. Sterilization is projected to hold a notable market share and is poised to grow at a significant pace over the forecast period, which is attributable to the fact that there has been an increase in the dental procedures and other operational procedures, which requires sterile equipment.

Pharmaceutical Industry to act as a contributing factor

Pharmaceutical industry professionals and staff need to take the utmost care while handling the medicines as the trace of any of the bacteria and viruses in the formulations can pose serious health issues to the individuals who are consuming them. The pharmaceutical industry is expected to hold a noteworthy share and act as a contributing factor in the market growth over the forecast period owing to the increasing demand arising from the consumers for effective and efficient top-quality pharmaceutical products, which is making the manufactures ensure that proper methods and measures are being taken in the procedures and operations.

Contents

1. INTRODUCTION

- 1.1. Market Definition
- 1.2. Market Segmentation

2. RESEARCH METHODOLOGY

- 2.1. Research Data
- 2.2. Assumptions

3. EXECUTIVE SUMMARY

- 3.1. Research Highlights

4. MARKET DYNAMICS

- 4.1. Market Drivers
- 4.2. Market Restraints
- 4.3. Porters Five Forces Analysis
 - 4.3.1. Bargaining Power of Suppliers
 - 4.3.2. Bargaining Power of Buyers
 - 4.3.3. Threat of New Entrants
 - 4.3.4. Threat of Substitutes
 - 4.3.5. Competitive Rivalry in the Industry
- 4.4. Industry Value Chain Analysis

5. MALAYSIA INFECTION CONTROL MARKET BY PRODUCT

- 5.1. Introduction
- 5.2. Disinfectant
- 5.3. Sterilization
 - 5.3.1. Low-Temperature Sterilization
 - 5.3.2. Heat Sterilization
 - 5.3.3. Contract Sterilization

6. MALAYSIA INFECTION CONTROL MARKET BY END-USER INDUSTRY

- 6.1. Introduction
- 6.2. Healthcare
- 6.3. Food and Beverage
- 6.4. Chemical

7. COMPETITIVE INTELLIGENCE

- 7.1. Major Players and Strategy Analysis
- 7.2. Emerging Players and Market Lucrativeness
- 7.3. Mergers, Acquisitions, Agreements, and Collaborations
- 7.4. Vendor Competitiveness Matrix

8. COMPANIES MENTIONED

- 8.1. 3M
- 8.2. Suria Infiniti
- 8.3. Dr?gerwerk AG & Co. KGaA
- 8.4. Belimed
- 8.5. List is not Exhaustive*
