Abstracts

The maple syrup market is projected to grow at a CAGR of 5.76% to reach US\$951.412 million by 2024, from US\$679.979 million in 2018. Maple syrup is a natural sweetener extracted from the xylem sap of maple trees, which are commonly found in Canada and the United States. The maple syrup market is projected to grow during the forecast period owing to its increasing demand as an alternative to sugar in multiple baking and confectionery applications. Furthermore, the growing awareness regarding the health benefits of maple syrup is also projected to augment this demand in the coming years. In addition to this, the growing popularity of maple syrup in developing regions such as China and India is estimated to open new opportunities for the maple syrup market to grow.
