Abstracts

Middle East and Africa Biostimulants market is projected to grow at a CAGR of 10.71% over the forecast period to reach US\$134.995 million in 2022. This region accounts the smallest share in the global Biostimulants industry market. Major driving factor for biostimulants market in the region is the need to increase per hectare crop yield to meet the food demand of rising population. Furthermore, water and land scarcity in the region also augments the demand of biostimulants. Moreover, adverse climatic conditions of also negatively impact the crop productivity and thereby subsequent usage of these solutions. Extensive production of more valued cash crops due to large-scale irrigation and mechanization in the region further urges the higher adoption of biostimulants in the region.
