## Abstracts

The ophthalmic equipment market is anticipated to grow at a CAGR of 2.96% to reach a market size of US\$48.888 billion by 2024, from US\$41.050 billion in 2018. The market for ophthalmic equipment includes devices and systems for the diagnosis, treatment, and post-treatment of eye diseases, implants for ophthalmic surgery, contact lenses, contact lens care products, and consumables except for glasses and glass frames. Growing prevalence of various ophthalmic diseases such as dry eye syndrome, glaucoma, cataract, and other vision-related issues and increase in initiatives taken by the government to control visual impairment is expected to fuel the growth of ophthalmic equipment market. According to World Health Organization, 1.3 billion people live with some form of visual impairment in which 188.5 million people have a mild vision impairment, 217 million have moderate to serve vision impairment and 36 million people are blind. Since the aging population is more susceptible to eye disease or eye disorders, their rising proportion across the globe is anticipated to drive the ophthalmic equipment market growth during the forecast period.
