## Abstracts

The pistachios market was valued at US\$226.937 million in 2018 and is anticipated to grow at a CAGR of 7.57% to reach a market value of US\$351.685 million by 2024. The market for pistachios is expected to grow during the forecast period due to the growing per capita consumption worldwide in addition to the health benefits it provides. The use of pistachios in the bakery industry is further fueling the market demand in the forecast and in the upcoming years. Growing awareness regarding the harmful effects of toxins through the usage of chemical pesticides and synthetic fertilizers in nuts have promoted the use of organic fertilizers, thus contributing to the market growth for organic pistachios, further propelling the market growth. Geographically, with the growing global production of pistachios, Iran holds the maximum production of pistachios followed by the United States and China from the Asia Pacific region.
