Abstracts

The portable spectrum analyzer market is projected to grow at a CAGR of 9.68% to reach US\$564.979 million by 2023, from US\$324.531 million in 2017. Rapid technological advancements in wireless technology coupled with increasing investment in application areas such as automotive, aerospace and defense is boosting the global portable spectrum analyzer market growth. An increase in the number of outside applications for is driving the demand for portable spectrum analyzers globally. Advancements in computer and battery technology is further contributing to the market growth.

This research study examines the current market trends related to the demand, supply, and sales, in addition to the recent developments. Major drivers, restraints, and opportunities have been covered to provide an exhaustive picture of the market. The analysis presents in-depth information regarding the development, trends, and industry policies and regulations implemented in each of the geographical regions. Further, the overall regulatory framework of the market has been exhaustively covered to offer stakeholders a better understanding of the key factors affecting the overall market environment.

Identification of key industry players in the industry and their revenue contribution to the overall business or relevant segment aligned to the study have been covered as a part of competitive intelligence done through extensive secondary research. Various studies and data published by industry associations, analyst reports, investor presentations, press releases and journals among others have been taken into consideration while conducting the secondary research. Both bottom-up and top down approaches have been utilized to determine the market size of the overall market and key segments. The values obtained are correlated with the primary inputs of the key stakeholders in the

portable spectrum analyzer value chain. The last step involves complete market engineering which includes analyzing the data from different sources and existing proprietary datasets while using various data triangulation methods for market breakdown and forecasting. Market intelligence is presented in the form of analysis, charts, and graphics to help the clients in gaining faster and efficient understanding of the portable spectrum analyzer market.

Major industry players profiled as part of the report are Advantest Corporation, LP Technologies, and Good Will Instruments Co.,Ltd. among others.

Segmentation

The portable spectrum analyzer market has been analyzed through following segments:

By Network Technology

Wired

Wireless

By Type

Swept Tuned Analyzer

Real Time Analyzer

FFT Analyzer

By End-User Industry

Automotive

Semiconductor and Electronics

IT and Telecommunication

Industrial

Aerospace and Defense
