

# Power Distribution Component Market - Forecasts from 2021 to 2026

<https://marketpublishers.com/r/PF475B25A754EN.html>

Date: February 2021

Pages: 128

Price: US\$ 4,250.00 (Single User License)

ID: PF475B25A754EN

## Abstracts

Power distribution component refers to equipment which is used to regulate distribution of electric power from transmission frameworks to particular end use equipment or consumers. A real world scenario would include the components used to regulate distribution of power to various machines in a factory or to use various systems in a car. They have a critical role to play not only in the distribution of power but also to ensure safety and protection of end use equipment and personnel operating it. Designed to distribute power, these components are capable of handling high and medium voltage and distributing it according to the power demand of the end use equipment. The rise in the demand of power distribution components is propelled due to the need of effective transmission and distribution control systems needed for refurbishing old electric systems and the addition of such components to prevent systems failures or accidents in electric systems. With industrialization, the need for such components is ever increasing, especially in the developing economies. The fiscal & regulatory restructuring across the large-scale industries combined with administrative and financial rebuilding has boosted the demand for such components. Being economical, adaptable and having wide application, these components have wide relevance not only for industries and institutions but for individual consumers as well. Some of the widely used power distribution components are switchgear, switchboard, distribution panel, motor control Panel among others. While having various applications, components such as switchgear are used to switch devices on or off and can be used in the control of low, medium, or high voltage power distribution, while also having new age applications like being used on cryptocurrency farms for mining cryptocurrencies like bitcoin.

With rapid digitisation across industries the need for power distribution components is bound to grow, however, despite the components themselves being economical, the installation costs of these components remains high acting as a restraint to the market

growth and more widespread adoption. Also being quite large in size, limited space may hinder the component's operational capability and in turn effect the market growth.

The global power distribution component market has been can be segmented on the basis of product, configuration, voltage rating, insulation, installation, current, application and geography.

By product, the market can be segmented into switchgear, switchboard, distribution panel, motor control Panel among others.

By configuration, the market has been segmented into fixed mounting, plug-in, withdrawable.

By voltage rating, the market has been segmented into

By insulation, the market has been segmented into air, gas, oil, and vacuum among others.

By installation, the market has been segmented into indoor and outdoor.

By current, the market has been segmented into AC and DC

By application, the market has been segmented into residential, commercial and industrial.

By Geography, the market has been segmented into North America, Latin America, Europe, Asia-Pacific, Middle East and Africa.

## Growth Factors

### Need of effective transmission and distribution control systems

The need for effective T&D control systems has propelled the growth for power distribution components. The outdated electric systems need refurbishing and in turn demand for these components is on the rise. Rapid industrialization and urbanization has increased the need for these components combined with the regulatory restructuring in large scale industries. With expansion of smart grid networks in North America and expansion of micro-grid networks in APAC region, market growth is ensured.

Spike in residential interest.

With these components being economical and having wide applications, residential interest in these components is on the rise. Applications like being used in the mining of cryptocurrencies among other factors plays a role in keeping residential consumers on the lookout for these components.

## Restraints

### High installation costs

The high installation costs of power distribution components like switchgears might be not being very economical for certain institutions and residential consumers acting as a barrier to the market's growth.

### Space Limitations

Due to the large size of these components, the wide use application might get effected acting as a restraint to the market's growth.

### Covid-19 Pandemic

Delivery of raw materials required for manufacturing power distribution components, restrictions on cross-border trade and movements and plateauing investments for the development of new power distribution components due to the novel COVID-19 crisis also had a negative impact on the growth of the power distribution component market.

## Competitive Insights

The global power distribution component market is a competitive and saturated market with a number of big and small players catering to local and international demands. Prominent/major key market players in the global power distribution component market include Eaton, Schneider, ABB, L&T, Siemens, Powell, and Hitachi among others. The players in the global power distribution component market are implementing various growth strategies to gain a competitive advantage over their competitors in this market. Major market players in the market have been covered along with their relative competitive strategies and the report also mentions recent deals and investments of different market players over the last few years. The company profiles section details

the business overview, financial performance (public companies) for the past few years, key products and services being offered along with the recent deals and investments of these important players in the global power distribution component.

## Mergers and Acquisitions

In June 2019, Japan's Fuji Electric Co. acquired Consul Neowatt Power Solutions Pvt Ltd.

In July 2018, BB announced its acquisition of GE Industrial Solutions in a \$2.6 billion deal.

## Segmentation:

### By Product

Switchgear

Switchboard

Distribution Panel

Motor control Panel

Others

### By Configuration

Fixed Mounting

Plug-in

Withdrawable Unit

### By Voltage Rating

11 to 33 kV

33 to 66 kV

66 to 132 kV

By Insulation

Air

Gas

Oil

Vacuum

Others

By Installation

Indoor

Outdoor

By Current

AC

DC

By Application

Residential

Commercial

Industrial

By Geography

North America

U.S.

Canada

Mexico

Latin America

Brazil

Argentina

Others

Europe

UK

Germany

France

Others

Middle East and Africa (MEA)

Saudi

Israel

Others

Asia-Pacific

China

Japan

India

Australia

Others

## Contents

### **1. INTRODUCTION**

- 1.1. Market Definition
- 1.2. Market Segmentation

### **2. RESEARCH METHODOLOGY**

- 2.1. Research Data
- 2.2. Assumptions

### **3. EXECUTIVE SUMMARY**

- 3.1. Research Highlights

### **4. MARKET DYNAMICS**

- 4.1. Market Drivers
- 4.2. Market Restraints
- 4.3. Porters Five Forces Analysis
  - 4.3.1. Bargaining Power of Suppliers
  - 4.3.2. Bargaining Power of Buyers
  - 4.3.3. The threat of New Entrants
  - 4.3.4. Threat of Substitutes
  - 4.3.5. Competitive Rivalry in the Industry
- 4.4. Industry Value Chain Analysis

### **5. GLOBAL POWER DISTRIBUTION COMPONENT MARKET ANALYSIS, BY PRODUCT**

- 5.1. Introduction
- 5.2. Switchgear
- 5.3. Switchboard
- 5.4. Distribution Panel
- 5.5. Motor control Panel
- 5.6. Others

### **6. GLOBAL POWER DISTRIBUTION COMPONENT MARKET ANALYSIS, BY**

## **CONFIGURATION**

- 6.1. Introduction
- 6.2. Fixed Mounting
- 6.3. Plug-in
- 6.4. Withdrawable Unit

## **7. GLOBAL POWER DISTRIBUTION COMPONENT MARKET ANALYSIS, BY VOLTAGE RATING**

- 7.1. 7.2. 11 to 33 kV
- 7.3. 33 to 66 kV
- 7.4. 66 to 132 kV

## **8. GLOBAL POWER DISTRIBUTION COMPONENT MARKET ANALYSIS, BY INSULATION**

- 8.1. Air
- 8.2. Gas
- 8.3. Oil
- 8.4. Vacuum
- 8.5. Others

## **9. GLOBAL POWER DISTRIBUTION COMPONENT MARKET ANALYSIS, BY INSTALLATION**

- 9.1. Indoor
- 9.2. Outdoor

## **10. GLOBAL POWER DISTRIBUTION COMPONENT MARKET ANALYSIS, BY CURRENT**

- 10.1. AC
- 10.2. DC

## **11. GLOBAL POWER DISTRIBUTION COMPONENT MARKET ANALYSIS, BY APPLICATION**

- 11.1. Residential

11.2. Commercial

11.3. Industrial

## **12. GLOBAL POWER DISTRIBUTION COMPONENT MARKET ANALYSIS, BY GEOGRAPHY**

12.1. Introduction

12.1.1. United States

12.1.2. Canada

12.1.3. Mexico

12.2. South America

12.2.1. Brazil

12.2.2. Argentina

12.2.3. Others

12.3. Europe

12.3.1. United Kingdom

12.3.2. Germany

12.3.3. France

12.3.4. Others

12.4. The Middle East and Africa

12.4.1. Saudi Arabia

12.4.2. Israel

12.4.3. Others

12.5. Asia Pacific

12.5.1. China

12.5.2. Japan

12.5.3. India

12.5.4. Australia

12.5.5. Others

## **13. COMPETITIVE ENVIRONMENT AND ANALYSIS**

13.1. Major Players and Strategy Analysis

13.2. Emerging Players and Market Lucrativeness

13.3. Mergers, Acquisitions, Agreements, and Collaborations

13.4. Vendor Competitiveness Matrix

## **14. COMPANY PROFILES**

- 14.1. Eaton Corporation
- 14.2. Schneider Electric
- 14.3. ABB Ltd
- 14.4. L&T
- 14.5. Siemens AG
- 14.6. Powell
- 14.7. Hitachi Ltd
- 14.8. E+I Engineering
- 14.9. Mitsubishi Electric Corporation
- 14.10. HYUNDAI ELECTRIC & ENERGY SYSTEMS CO., LTD.

## I would like to order

Product name: Power Distribution Component Market - Forecasts from 2021 to 2026

Product link: <https://marketpublishers.com/r/PF475B25A754EN.html>

Price: US\$ 4,250.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/PF475B25A754EN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:

First name:  
Last name:  
Email:  
Company:  
Address:  
City:  
Zip code:  
Country:  
Tel:  
Fax:
