## Abstracts

The self-checkout systems market was valued at US\$8.269 billion in 2018 and is anticipated to grow at a CAGR of 25.64% to reach a market size of US\$32.529 billion in 2024. The ability of the self-service checkout systems to reduce cart abandonment, ensuring less waiting than traditional checkout lanes, and freeing store staff for other store-related work is leading to its growing popularity. The growing focus by the retailers to increase the customer's satisfaction and the shopping experience is leading to a significant increase in the deployment of the self-checkout systems globally. Moreover, rising investment in order to improve patient's experience has also led to its growing adoption in the healthcare sector.

The Self-Checkout Systems Market – Forecasts from 2019 to 2024 is an exhaustive study that aims to present the key market trends through various chapters focusing on different aspects of the market. The study provides a detailed market overview through the market dynamics sections which detail key market, drivers, restraints, and opportunities in the current market. The report analyzes key opportunity regional markets, and the current technology penetration through lifecycle analysis. The report also analyzes the market through comprehensive market segmentation by component, model, type of mounting, end-use industry, and geography.

The self-checkout systems market has been segmented based on component, model, type of mounting, end-use industry, and geography. Based on components, the self-checkout systems are categorized as hardware (customer display, belts, price readers, others) and software. Based on the model, the market has been segmented into cash model and cashless model. By type of mounting, the market is broken down into stand-alone, countertop, and wall-mounted. The market is also evaluated based on end-use industries such as entertainment, healthcare, hospitality, and retail.

Regional analysis has been provided with detailed analysis and forecast for the period 2018 to 2024. The global market has been broken down into North America, South America, Europe, Middle East and Africa (MEA), and the Asia Pacific regions. The report also analyzes 15 countries across these regions with thorough analysis and forecast along with prevailing market trends and opportunities which each of these countries present for the manufacturers.

Major players in the self-checkout systems market have been covered along with their relative competitive position and strategies. The report also mentions recent deals and investments of different market players over the last year. The company profiles section details the business overview, financial performance for the past three years, key products and services being offered along with the recent developments of these important players in the self-checkout systems market.
