Abstracts

The Sheet Metal Fabrication Services market is projected to grow at a CAGR of 2.55% over the forecast period of 2017 to 2023. Increasing investment in various industries like automotive, construction, aerospace and defense drives the growth for sheet metal fabrication services market. Sheet metal fabrication has become an integral part of the various end user industries which continue to fuel up the demand in the market. Increasing investment and development in APAC region is expected to further boost up the market and may create ample of opportunities for manufacturers and vendors. Technological advancement in manufacturing sector has continued to evolve over the period of time in the developed regions which further remain the driving force for the market.

This research study examines the current market trends related to the demand, supply, and sales, in addition to the recent developments. Major drivers, restraints, and opportunities have been covered to provide an exhaustive picture of the market. The analysis presents in-depth information regarding the development, trends, and industry policies and regulations implemented in each of the geographical regions. Further, the overall regulatory framework of the market has been exhaustively covered to offer stakeholders a better understanding of the key factors affecting the overall market environment.

Identification of key industry players in the industry and their revenue contribution to the overall business or relevant segment aligned to the study have been covered as a part of competitive intelligence done through extensive secondary research. Various studies and data published by industry associations, analyst reports, investor presentations, press releases and journals among others have been taken into consideration while conducting the secondary research. Both bottom-up and top down approaches have

been utilized to determine the market size of the overall market and key segments. The values obtained are correlated with the primary inputs of the key stakeholders in the Sheet Metal Fabrication Services value chain. The last step involves complete market engineering which includes analyzing the data from different sources and existing proprietary datasets while using various data triangulation methods for market breakdown and forecasting.

Market intelligence is presented in the form of analysis, charts, and graphics to help the clients in gaining faster and efficient understanding of the Sheet Metal Fabrication Services market.

Major industry players profiled as part of the report are Classic Sheet Metal, Inc, All Metals Fabricating, Inc, Moreng Metal Products, Inc, BTD Manufacturing, Inc., Metcam, Inc and Dynamic Aerospace and Defense Group among others.

Segmentation

The Sheet Metal Fabrication Services market has been analyzed through following segments:

By Technique

- Bending
- Cutting
- Punching
- Others

By Material Type

- Silver
- Aluminum
- Other

By Industrial Vertical

- Construction
- Automotive
- Industrial machinery
- Others

By Geography

- North America
 - USA
 - Canada
 - Mexico
- Others
