## Abstracts

South America Biostimulants Market is projected to expand at a CAGR of 11.54% over the forecast period. Rising demand for increasing crop productivity owing to the increasing population in the region is one of the key driving factors for biostimulants market growth in the region. Stress on farming of cereals, cash crops, and elevated production of sugarcane in the region is also providing significant impetus to the usage of biostimulants. Brazil holds the largest share of the South America Biostimulants market owing to need to enhance crop yield due to the burgeoning demand for food products.
