## Abstracts

Sugar topping market is projected to grow at a CAGR of 2.61% during the forecast period, reaching a total market size of US\$7.159 billion in 2024 from US\$6.132 billion in 2018. Sugar toppings are used in the form of dry or wet toppings as one of the ingredients in confectionaries and bakery commodities. This is done in order to enhance the food taste and also give it a fancy look used in the decoration of cookies, candies, cakes and many more. Major driving factors driving the global sugar topping market include high disposable income, changing dietary and living conditions and increasing demand for the ready-to-eat food items. In addition, growing health concerns have led to the consumption of low-calorie intake giving rise to consumer preferences towards low-sugar topping food items especially in developed countries like Europe and North America.
