Abstracts

The UK Infection control market is projected to grow at a CAGR of 8.18% during the forecast period. The concerns among different end-user industries, offices, manufacturing facilities, and other institutions for working in healthier surroundings is increasing which is augmenting the investments into better products and development of better healthcare services and facilities, thus, stimulating the demand for infection control solutions in the United Kingdom.

In addition, the growth in the number of geriatric population has resulted in an increase in the incidence of serious diseases that is pushing the demand for better healthcare facilities upwards, which is resulting in increasing steps being taken to ensure the sanitation of the surrounding area.

Moreover, the government is taking serious steps and initiatives in order to lessen the burden of infectious and serious diseases by preventing and controlling the steps and taking other appropriate actions in response. For example, the recent program and strategy plan called the "Infectious Diseases Strategy 2020-2025 by Public Health England has been implanted under the partnership with other government healthcare institutions such as the NHS and local authorities; as well as in in partnership with the World Health Organization to help mitigate the causes of infection due to Hepatitis B, Hepatitis C, and Tuberculosis. The objective of this program consists of 6 steps and major functions which are Prevent and Protect, Detect and Control, Prepare and Respond, Build and Apply, Advise and Collaborate, and Generate and Share. Under the prevent and protect, the individual which are susceptible to acquiring infections are going to be provided protection, under the detect and control, the data and networks are going to be used in order to manage cases, clusters, and disease outbreaks and other incidents of diseases. Under the step, prepare and respond, planning is going to be

conducted to effectively respond to the infectious disease threats locally and globally, among the appropriate actions taken under other steps.

Disinfectant to hold a significant market share and show notable growth over the forecast period

Disinfectants are essential components of any medical institution, healthcare facility, offices and other public places as they are able to sanitize the areas effectively by killing the microbes and other dangerous bacteria. This aids in minimizing the chances of the individuals in the population of contracting communicable and other bacteria-related diseases, and viruses that spread via air and due to contact with infected surfaces. Disinfectants are expected to hold a significant market share and show notable growth over the forecast period. This is attributable to the fact that there has been an increase in the number of diseases due to the use of infected needles and other instruments and dirty surroundings in hospitals and resulted in the increased demand of these products, in turn boosting the market growth and contributing to the share of disinfectants.

Segmentation

By Product

Disinfectant

Sterilization

Low-Temperature Sterilization

Heat Sterilization

Contact Sterilization

By End-User Industry

Healthcare

Food and Beverage

Chemical

Contents

1. INTRODUCTION

- 1.1. Market Definition
- 1.2. Market Segmentation

2. RESEARCH METHODOLOGY

- 2.1. Research Data
- 2.2. Assumptions

3. EXECUTIVE SUMMARY

- 3.1. Research Highlights

4. MARKET DYNAMICS

- 4.1. Market Drivers
- 4.2. Market Restraints
- 4.3. Porters Five Forces Analysis
 - 4.3.1. Bargaining Power of Suppliers
 - 4.3.2. Bargaining Power of Buyers
 - 4.3.3. Threat of New Entrants
 - 4.3.4. Threat of Substitutes
 - 4.3.5. Competitive Rivalry in the Industry
- 4.4. Industry Value Chain Analysis

5. UK INFECTION CONTROL MARKET BY PRODUCT

- 5.1. Introduction
- 5.2. Disinfectant
- 5.3. Sterilization
 - 5.3.1. Low-Temperature Sterilization
 - 5.3.2. Heat Sterilization
 - 5.3.3. Contact Sterilization

6. UK INFECTION CONTROL MARKET BY END-USER INDUSTRY

- 6.1. Introduction
- 6.2. Healthcare
- 6.3. Food and Beverage
- 6.4. Chemical

7. COMPETITIVE INTELLIGENCE

- 7.1. Major Players and Strategy Analysis
- 7.2. Emerging Players and Market Lucrativeness
- 7.3. Mergers, Acquisitions, Agreements, and Collaborations
- 7.4. Vendor Competitiveness Matrix

8. COMPANIES MENTIONED

- 8.1. 3M
- 8.2. Belimed
- 8.3. Olympus Corporation
- 8.4. Envirolyte Group
- 8.5. GAMA Healthcare Ltd.
- 8.6. List is no Exhaustive*
