

# Saudi Arabia Clinical Trials Market, Ongoing Clinical Trials By Company, Indication, Phase & Regulations Insight 2025

<https://marketpublishers.com/r/S72D6DA05445EN.html>

Date: February 2025

Pages: 250

Price: US\$ 3,300.00 (Single User License)

ID: S72D6DA05445EN

## Abstracts

Please note: extra shipping charges are applied when purchasing Hard Copy License depending on the location.

Saudi Arabia Clinical Trials Market, Ongoing Clinical Trials By Company, Indication, Phase & Regulations Insight 2025 Report Highlights:

Saudi Arabia Clinical Trials Market Opportunity: US\$ 200 Million

Comprehensive Insight On Clinical Trials Studies In Saudi Arabia : > 400 Studies

Clinical Trials Studies By Indication, Phase & Sponsor

Regulatory Framework & Clinical Trials Guidelines

Insight On Domestic CRO Operating In Saudi Arabia: 15 CRO

Overview On Existing Healthcare Infrastructure & Medical Professionals Like Doctors, Dentist, Nurses

Saudi Arabia is making significant strides in expanding its clinical research sector, aligning with the broader objectives of Vision 2030, which prioritizes scientific advancement and innovation. The Saudi government is actively enhancing research education and investing in clinical trials to improve healthcare outcomes. A key player in this transformation is the Saudi National Institute of Health (NIH), which has launched

several initiatives to raise the quality and quantity of research conducted within the country. These efforts include establishing cutting-edge research facilities, fostering an environment where clinical trials can thrive, and setting new benchmarks for excellence.

By strengthening its focus on clinical trials, Saudi Arabia aims to develop medical treatments tailored to its population's specific genetic and health profiles. This is particularly important given the high prevalence of conditions such as diabetes and cardiovascular diseases, which require targeted treatment approaches. Addressing these health challenges through locally relevant clinical research ensures that therapies are better suited to the Saudi population, improving both patient outcomes and the overall healthcare system.

A closer look at the therapeutic areas of focus reveals that oncology, endocrinology, cardiology, and infectious diseases dominate Saudi Arabia's clinical trial landscape. These fields have attracted significant attention due to their widespread impact on public health. Pharmaceutical companies play a crucial role in this ecosystem, serving as the primary sponsors of most clinical trials, particularly multinational studies that require extensive resources and collaboration. Meanwhile, local researchers are actively involved in studies that focus specifically on the Saudi population, addressing region-specific health concerns.

Geographically, the majority of clinical trial sites are concentrated in urban centers, with Riyadh serving as the leading hub for research activities. The Makkah region and the Eastern Province also play significant roles, reflecting a broader trend where research efforts are primarily centered in areas with well-established medical infrastructure and access to specialized expertise. This concentration of research activity enables more efficient coordination of trials and facilitates collaborations between healthcare institutions, regulatory bodies, and industry stakeholders.

As Saudi Arabia's clinical research landscape continues to develop, there has been a noticeable rise in the number of clinical trial applications under review. The Saudi Food and Drug Authority (SFDA) is working diligently to strengthen its regulatory framework, ensuring that all studies meet stringent safety and efficacy standards. This regulatory progress is crucial as the country seeks to attract more international multicenter trials, allowing it to integrate into the global clinical research ecosystem.

The SFDA's efforts include refining approval processes, implementing robust monitoring systems, and ensuring compliance with international best practices. These

improvements are particularly vital as Saudi Arabia moves toward more sophisticated trial designs, including precision medicine approaches and innovative drug development strategies.

Additionally, the country is placing greater emphasis on translational research, bridging the gap between laboratory discoveries and real-world clinical applications. By fostering a research-friendly environment and maintaining high regulatory standards, Saudi Arabia is positioning itself as a key player in the global clinical trials landscape, driving advancements that will shape the future of healthcare both regionally and beyond.

## Contents

### **1. SAUDI ARABIA CLINICAL TRIALS MARKET OUTLOOK**

- 1.1 Current Scenario
- 1.2 Future Growth Outlook

### **2. SAUDI ARABIA PHARMACEUTICAL MARKET ANALYSIS**

- 2.1 Overview
- 2.2 Regulatory Framework
- 2.3 Branded v/s Generic Drugs Availability

### **3. SAUDI ARABIA CLINICAL TRIALS OVERVIEW**

- 3.1 By Phase
- 3.2 By Sponsors

### **4. SAUDI ARABIA CLINICAL TRIALS INSIGHT BY COMPANY, INDICATION & PHASE**

- 4.1 Phase I
- 4.2 Phase I/II
- 4.3 Phase I/IIIB
- 4.4 Phase II
- 4.5 Phase II/III
- 4.6 Phase III
- 4.7 Phase IV
- 4.8 Phase BE

### **5. SAUDI ARABIA CLINICAL TRIALS REGULATORY FRAMEWORK & GUIDELINES**

- 5.1 Overview
- 5.2 Drug Safety Monitoring Initiatives
- 5.3 Regulations For Conducting Clinical Trials on Drugs
- 5.4 Regulation For Drugs Approval
- 5.5 Guidelines For Investigational New Drugs (IND)

### **6. HEALTHCARE INFRASTRUCTURE & MANPOWER IN SAUDI ARABIA**

*Saudi Arabia Clinical Trials Market, Ongoing Clinical Trials By Company, Indication, Phase & Regulations Insig...*

## **7. SAUDI ARABIA CLINICAL TRIALS MARKET DYNAMICS**

7.1 Drivers & Opportunities

7.2 Challenges & Restraints

## **8. CLINICAL RESEARCH ORGANIZATIONS OPERATING IN SAUDI ARABIA**

8.1 ArabMed CRO

8.2 Baahith

8.3 Balsam Clinical Research

8.4 CLINLIA

8.5 ClinServ International

8.6 CTI

8.7 KAU Med CRO

8.8 MCT CRO

8.9 Mesned

8.10 Monitoring Force Gulf Limited

8.11 PDC CRO

8.12 Phoenix Clinical Research

8.13 RAY CRO

8.14 SALA CRO

8.15 SGS

## I would like to order

Product name: Saudi Arabia Clinical Trials Market, Ongoing Clinical Trials By Company, Indication, Phase & Regulations Insight 2025

Product link: <https://marketpublishers.com/r/S72D6DA05445EN.html>

Price: US\$ 3,300.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
